<b>Total</b>	<b>3537</b>	<b>100</b>

Epidemiology Program February, 2011. Percent may not total 100 due to rounding.

\*The total number of PLWA and Unaware was estimated by summing the number of living HIV and AIDS cases through 2009 and back calculating the 21% the CDC estimates is HIV positive and unaware of their status. Proportions within each category were based on HIV cases diagnosed 2008-2009, reported through 12/31/2009.

\*\*Age for Unaware is age at diagnosis in either 2008 or 2009.

\*\*\*No estimates will be calculated based on less than five cases.
